STAGE DIRECTIONS

THE POWER TO COMMUNICATE

is the fussion of creativity and technology.
 Talent and tools.

Imagination harnessing technique.
 Today's business climate requires them all.
 Great ideas fostered without the electronic tools of our age fall ineffectively below the mark.
 State-of-the-art tools void of creative skills render a message useless and un-noticed in a busy world.
 Creativity in the hands of talented people coupled with today's electronic tools releases tremendous power.

It is The Power to Communicate.
